Portfolio: https://dgr0ne.github.io/dataportfolio

AI & Data Specialist | Industrial Automation & Analytics Specialist

PROFILE SUMMARY

AI and Data professional with 6+ years of hands-on experience in manufacturing and energy operations, now specializing in AI-driven automation and data intelligence. Strong at translating real-world operational challenges into scalable digital solutions using Python, Power BI, SQL, and modern AI frameworks.

Brings deep domain knowledge in maintenance, utilities, and SAP-driven operations, combined with practical experience building AI-powered workflows, dashboards, and automation systems. Experienced in applying Generative AI, RAG-based systems, and agentic workflows to improve decision-making, reduce manual effort, and enable data-driven operations.

Known for strong execution, adaptability, and the ability to bridge the gap between engineering teams and business stakeholders.

CORE SKILLS

AI, Automation & Engineering

- Generative AI (LLMs, Prompt Engineering, Agentic Workflows)
- RAG (Retrieval-Augmented Generation)
- LangChain, LangGraph
- OpenAI API, Model Context Protocol
- AI Orchestration & Workflow Design
- AI-based Automation (n8n, App Script)
- Responsible AI & Prompt Optimization

Data & Analytics

- Python (Pandas, NumPy, Matplotlib, Seaborn)
- SQL (Joins, Aggregations, Data Modeling)
- Power BI (DAX, Power Query, Data Modeling)
- Advanced Excel (VBA, Macros, Power Query)
- Data Analysis, Reporting, Visualization

Platforms & Tools

- SAP HANA (Maintenance & Procurement)

- Supabase (SQL Backend)
- VS Code, Jupyter Notebook
- Microsoft Power Platform
- API Integration

PROJECT EXPERIENCE

AI-Driven PM Scheduling Automation

Tools: Excel, VBA, ChatGPT

- Automated preventive maintenance scheduling from yearly master data
- Reduced manual effort by **12+ hours/month** across 400+ assets
- Improved scheduling accuracy and compliance tracking

Utility Analytics & Monitoring System

Tools: Power BI, SQL

- Built dashboards to analyze power & water consumption trends (2022–2024)
- Identified inefficiencies and anomalies for optimization
- Enabled management to track performance against monthly targets

---

AI-Powered Inventory Management System

Tools: Supabase, SQL, Bolt AI

- Designed a web-based inventory tracking system
- Enabled real-time stock visibility and consumption tracking
- Improved audit transparency and procurement planning

AMC Renewal Automation System

Tools: Google App Script, JavaScript

- Automated renewal reminders with email alerts
- Reduced missed renewals and manual follow-ups
- Improved compliance and vendor coordination

PROFESSIONAL EXPERIENCE

Nordex Acciona Windpower Pvt. Ltd

Operational BI & Automation Specialist | Chennai | Jun 2022 – Present

- Built executive-level dashboards for operational and performance reporting
- Transformed raw equipment and utility data into actionable insights
- Automated reporting and tracking processes, reducing admin effort by **30–40%**
- Designed Power BI dashboards for energy consumption and asset utilization
- Supported SAP-based procurement and maintenance analytics
- Played a key role in improving equipment uptime through data-backed planning

---

MRF Ltd – Electrical Supervisor

Aug 2021 – Apr 2022

- Analyzed SAP data for transformer and DG set performance
- Supported preventive maintenance through structured data logging
- Improved data accuracy for long-term asset analysis

TI Metal Forming – Diploma Trainee

Mar 2019 – Aug 2021

- Maintained power and maintenance logs
- Supported data collection for operational efficiency tracking
- Built strong foundation in industrial systems and data accuracy

---

EDUCATION & CERTIFICATIONS

Diploma – Electrical & Electronics Engineering

Murugappa Polytechnic College | 2018

Certifications

- Advanced Data Visualization – Power BI (GUVI – HCL)
- Generative AI & Prompt Engineering (UPTOR)
- Data Analytics Specialization – Novitech
- Machine Learning Internship – Novitech
- IBM RAG Agentic AI (IBM)

LANGUAGES

- Tamil – Fluent
- English – Fluent
- Telugu – Conversational
